

Family Dog Training Level Two

This 6 week long program takes your training partnership further. This class is fun, informative, and productive. We continue each dog's education striving for off-lead control. We want to bring out the most in every dog. We work on control, tolerance of other animals and situations, solid stays and consistent recalls. New commands as well as hand signals are introduced. The class is tailored to fit the needs of the individuals in the class. This class is the prerequisite for our Level Three class.
