

Family Dog Training: Level One

This six-week long program teaches the basic commands every family dog should know. Sit, stay, down, stand, come, wait at doors, don't jump on people, behaving around other dogs, and walking on a loose lead. Additionally, each class includes an informative, short lecture on topics important to the dog owner. Grooming basics, first aid, how to cut toenails, etc., are examples of our topics.

These classes are geared toward the pet dog, not the show dog, but all dogs over the age of 4.5 months are encouraged to attend. There are no dogs too unruly, too stubborn, or too obstreperous for our family dog training classes. This is why we have them. Every dog and his human companion will come away from each class with a better understanding of each other.

All participants in our Family Dog Training Classes should be in reasonably good health. Dogs need to be current on proper inoculation. Dogs thought to be untrustworthy around strangers may need a private consultation before the start of this class. Speak to Terry at the first class session. We will absolutely accept dogs showing aggressive tendencies but may first want to do private training for safety concerns. Do not hesitate to call if you have concerns. Dogs showing aggressiveness to other dogs will be dealt with in class.
